Important Change of Plans – Regional One Day Workshops instead of the National Conference

We are planning two regional one day workshops for November 2010 and March 2011. These workshops will be called, *Building Bridges to Move Beyond Labels* and *Advocacy is Life Changing*. Given these difficult economic times we feel these two full-day workshops will be a much more cost effective way to serve the needs of our target audience who are primarily parents of children with special needs and teachers with limited disposable income. **We felt a national conference would be too expensive for our target audience and therefore we have cancelled it and will hold regional workshops in the New England area instead.**

I will be sending out more information about these one day workshops after the upcoming CSC Speaker Series this spring as described below.
